

Steps to your qualityaustria Certificate

1. Information

Read standards and relevant literature. Attend our information events and benefit from our offer for a free and personal information meeting. We inform you about requirements and the typical procedure of a certification project.

2. Decision

You determine which standard or framework is most suitable for you. You decide how to proceed and define a timeline up to your certification.

3. Concept

You analyze the requirements of the standard and plan their implementation in your organization. This includes redesigning processes and anchoring them. You train employees and ensure commitment at all levels.

4. Short audit (optional)

We evaluate the progress of implementation of your management system and can thus identify deficits or misinterpretations. This helps you to reduce costs and save time in your certification project.

5. Certification audit stage 1

We assess the maturity of your management system.

6. Certification audit stage 2

We audit the processes and requirements on the basis of random samples in your organization.

7. Your certificate

You receive your **qualityaustria** Certificate as attestation of conformity. The successful certification is a proof of quality that can be communicated internally and externally. Your chances on the market and in tendering can be improved as a result.

8. Continuous development and improvement of the system

As certified organization you continuously develop your management system, so that it can support your strategic orientation and business success.
